

How to view saved passwords in Chrome.

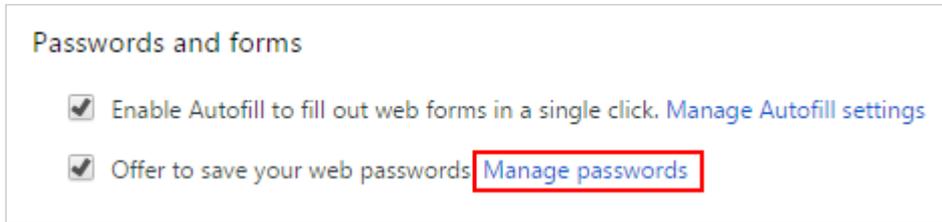

1. Click the **Menu** button and **Settings**.

2. At the very bottom, click **Show advanced settings ...**

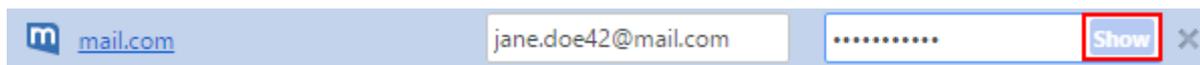

The image shows a screenshot of the Chrome Settings page. On the left side, there is a navigation menu with the following items: History, Extensions, Settings, and About. The main content area is titled 'Settings' and contains several sections: 'Sign in' with a 'Sign in to Chrome' button; 'On startup' with three radio button options: 'Open the New Tab page' (selected), 'Continue where you left off', and 'Open a specific page or set of pages. Set pages'; 'Appearance' with 'Get themes' and 'Reset to default theme' buttons, and two checkboxes: 'Show Home button' and 'Always show the bookmarks bar'; 'Search' with a dropdown menu set to 'Google' and a 'Manage search engines...' button; 'People' with a profile card for 'Person 1 (current)', two checked checkboxes: 'Enable Guest browsing' and 'Let anyone add a person to Chrome', and buttons for 'Add person...', 'Edit...', 'Remove...', and 'Import bookmarks and settings...'; and 'Default browser' with a 'Make Google Chrome the default browser' button and the text 'Google Chrome is not currently your default browser.' At the bottom of the page, a link labeled 'Show advanced settings...' is highlighted with a red rectangular box.

3. In the **Passwords and forms** section, click **Manage passwords**.

4. A list of saved passwords will appear.

5. To narrow down the list, enter **mail.com** in the search field. Click the appropriate entry and then Show.

6. The password is shown.
