

How to view saved passwords in Thunderbird.

1. To open the options, press the **Alt** and **T** keys at the same time. Click **Options**.
2. Switch to the **Security** tab and click **Passwords**. Click the **Saved Passwords ...** button.
3. A list of saved passwords will appear.
4. To narrow down the list, enter **mail.com** in the search field. Click **Show Passwords** and confirm by clicking **Yes**.
5. The password is shown.
